📄 Summary

Quality of higher education (HE) is the basic priority of HE development during last decades in many countries of the world. In Europe, the Bologna process (BP) has declared the quality of HE as one of the major priorities. In CA region the quality assurance (QA) systems and mechanisms are the national priorities while the BP type reforms constitute one of the regional priorities. The consortium 5 institutions of Programme countries (PrCs-CZ, ES LV,SK,) and 6 HEIs from Partner countries (PaCs - KZ and UZ) was established with the aim to enhance the capacities in implementation of internal QA systems in PaCs using the European standards and guidelines (ESG). The specific objectives will be - Mapping the situation in the field of QA in PaCs and their HEIs; - Identification of the principles of BP relevant for HEIs in PaCs, interactive training with sharing experience among HEIs of Pr and Pa Cs; setting the institutional profiles of HEIs of PaCs with exploitation of U-map methodology;- Development of internal new/innovative, modified QA systems of HEIs of PaCs. The process will be composed of the first draft of QA systems, piloting with the supports of site-visit of expert teams of PrCs and consultations leading to the final versions of internal QA
